

TAYLOR CHIROPRACTIC & LASER CENTER

Create Wellness. Reduce Pain. Lose Weight. 🌸

NOT YESTERDAY'S CHIROPRACTOR...

Our goal is to help you feel well so you can live well. Over the past 16 years, Dr. Derek Taylor has been helping people discover and correct the root cause of their health problems. Our office is unique in that we have combined the most recent advances in the field of pain, weight loss and wellness with Class IV laser technology while addressing the whole person, physically, chemically and emotionally.

After careful evaluation of each patient's specific needs, we customize a treatment plan that will provide the most effective results in the shortest period of time. We have a very high success rate in helping people because we seek to address the real cause not just the symptom. Dr. Taylor has developed his own technique for correcting peoples' health problems that combine a variety of methods in one treatment.

Most of our patients would agree that the treatments they receive are unlike anything they have experienced and the results can be immediate, long-lasting and very effective.

OUR SERVICES

CUSTOMIZED CHIROPRACTIC CARE

We provide customized spinal correction utilizing gentle and specific Chiropractic adjustments to improve your health. Never in the history of Chiropractic have we been able to provide the level of help and expertise that now exists. The Chiropractic care we deliver is safe, comfortable and very effective. As licensed Doctors of Chiropractic, we have years of training and experience in spinal adjustment and are constantly seeking out the latest advances in Chiropractic to improve your results.

LASER LIGHT THERAPY

Our office is one of the few private health clinics in the United States today that offers both the Class IV Avicenna and Class IV K-Laser. These high powered Class IV Lasers have been proven to provide amazing results (90% success rate) in treating neuromusculoskeletal problems.

Over 2,500 scientific studies found in the National Library of Medicine have demonstrated that Lasers: Promote tissue repair, improve wound healing, reduce pain, reduce scar tissue, improve range of motion and provide faster and better quality (stronger tissues) of healing to injured areas.

SCAR TISSUE REDUCTION

Most people don't realize how adhesive scar tissue is a primary cause of pain. This problem is typically not addressed at all or it is addressed using old methods such as massage, trigger point therapy or deep tissue therapy (including rolling).

We provide the most innovative and effective techniques to reduce scar tissue including:

- Class IV Laser Therapy
- Graston technique
- Dynamic Joint Recovery
- and more

LASER WEIGHT LOSS

We focus on correcting the real cause of your stubborn weight problems and use the Class IV Laser to speed up the process. Studies show that Class IV Laser therapy has a profound effect on speeding up metabolism and increasing cellular activity to rid your body of toxins. Toxins can act as endocrine disruptors which in turn can block hormonal receptor sites. Hormonal imbalance leads to stubborn weight gain.

WELLNESS

Our wellness program is designed to increase your longevity by minimizing your physical, chemical and emotional stress while maximizing your body's ability to function at its best. We use specialized testing to determine: your biological age (how fast are you aging?), food sensitivity (which foods are stressing your body), your autonomic nervous system and exercise recovery ability.

VIP MESSAGE CLUB

We offer and recommend full body massage therapy to alleviate the accumulation of stress in your body. Everyone can benefit from getting regular bodywork. Whether you are using it for pampering, rejuvenating or for therapeutic reasons, massage therapy can be very beneficial. Budgeting time and money for bodywork at consistent intervals is a great investment in your health. This is why we have created our VIP massage club where you can receive regular massages at a greatly reduced price.

CUSTOM-MADE ORTHOTICS

We offer digitally scanned, custom-made orthotics to stabilize and balance your feet, pelvis and spine. Stabilizing and balancing your feet can enhance your body's performance and efficiency, reduce pain and contribute to your total body wellness.

MESSAGE CLUB

We offer and recommend full body massage therapy to alleviate the accumulation of stress in your body. Everyone can benefit from getting regular bodywork. Whether you are using it for pampering, rejuvenating or for therapeutic reasons, massage therapy can be very beneficial. Budgeting time and money for bodywork at consistent intervals is a great investment in your health. This is why we have created our VIP massage club where you can receive regular massages at a greatly reduced price.
